# Chapter 8: Greek Philosophy and Socrates

## Philosophy and Adversity

1. What happened to philosophy in Athens as the Athenian empire was collapsing?

## Early Greek Philosophy

2. Before philosophy, how did the Greeks explain natural events like storms?
3. What is a philosopher?
4. Why were the early philosophers important, even though some of their ideas turned out to be wrong?

## Socrates

5. How do we know about Socrates's ideas if he never wrote anything down?
6. How was Socrates different from the philosophers who came before him?
7. What did Socrates mean when he said "the unexamined life is not worth living"?

## The Socratic Method

8. What is the Socratic method?
9. In what way did Socrates say he was wise?
10. Why did many Athenians find Socrates annoying, and what was he eventually charged with?

## The Death of Socrates

11. Why did Socrates refuse to escape from prison?
12. What is Socrates remembered for today?
